WORK EXPERIENCE

TechnoComet Solutions | 2024 – Present

App Developer

- Developed and maintained production mobile applications using Flutter and Kotlin.
- Built multiple applications from scratch, both independently and as part of a 6–7 member development team.
- Implemented new features, integrated REST APIs, Firebase services, WebSockets, and third-party services, and resolved production issues.
- Worked with Clean Architecture, Repository Pattern, and Provider for scalable application development.
- Managed **Google Play Store** deployments, app updates, ownership transfers, and signing-key related issues. Along with **App Store** app updates.
