WORK EXPERIENCE

TechnoComet Solutions | 2024 – Present

App Developer

- Developed and maintained production mobile applications using Flutter and Kotlin.
- Built multiple applications from scratch, both independently and as part of a 6–7 member development team.
- Implemented new features, integrated REST APIs, Firebase services, WebSockets, and third-party services, and resolved production issues.
- Worked with Clean Architecture, MVVM, Repository Pattern, and Provider for scalable application development.
- Managed **Google Play Store** deployments, app updates, ownership transfers, and signing-key related issues. Along with **App Store** app updates.
- Collaborated with backend developers and communicated directly with clients to understand requirements and deliver solutions.

EDUCATION

Saint Mary's School | 2015 – 2017

SSC | 59 %

HSC | 65 %

Atmiya Institute of Technology | 2018 – 2022

Bachelor of Computer Science | 89 %

Master of Science in I.T. | 85 %

PROJECTS

Hukup Dating App

- Contributed to a production dating application with a profile-card based user discovery experience
- Developed Flutter UI and core application functionality and helped maintain the app through Google Play Store releases

Listening Eyes

- Developed an accessibility-focused educational app for visually impaired students using Flutter and text-to-speech
- Built the application and supporting admin app single-handedly from scratch and published it on Google Play Store
